PROFILE SUMMARY

Front-End Developer with 3 years of experience, specializing in React and HubSpot development. Experienced in building responsive and user-friendly web interfaces using JavaScript, HTML, CSS, as well as CMS platforms like HubSpot and WordPress
Highly experienced in custom HubSpot solutions including UI extensions, workflows, serverless functions, and HubSpot APIs. Proficient with tools like GitHub, ChatGPT, and Jira. Passionate about clean, scalable code and intuitive user experiences.

WORK EXPERIENCE

Frontend Developer (React and HubSpot Developer)   **2022 - Present**

Niswey , New Delhi

- Developed and maintained scalable, responsive front-end features using React and modern JavaScript frameworks.
- Built custom UI extensions, integrated third-party tools, and enhanced functionality within the HubSpot platform.
- Designed and implemented custom workflows in HubSpot to automate business processes, improve lead management, and enhance marketing operations.
- Utilized HubDB to create dynamic, data-driven content experiences, enabling seamless updates and enhanced website interactivity.
- Created and customized themes in HubSpot CMS, tailored to client branding and specific design requirements.
- Built and deployed serverless functions to extend HubSpot's capabilities and handle advanced backend logic.
- Improved UX/UI across multiple projects by refining interface behavior and optimizing performance.
- Managed website content and plugin functionality through WordPress, including minor custom development work
